ELLIOT RAMSDEN

INSIDER THREAT HUNTER

I am currently an Insider Threat Hunter at Santander UK. Before Santander, I worked in a SOC as a Tier 1 analyst for a company called ReliaQuest; this enabled me to learn a range of SIEMs and EDRs that were used by various clients. I graduated with a First in Cyber Security from Staffordshire University in 2024, since then, I have completed multiple certifications and am now being trained in digital forensics.

WORK EXPERIENCE

Aug 2025 – Present

Insider Threat Hunter

Santander UK, Milton Keynes, United Kingdom

I currently work at Santander UK as an Insider Threat Hunter. As part of this role, I am responsible for monitoring all UK employee's computer activities for any sign of suspicious intent. I have created numerous queries that have detected insider risk and have enabled relevant teams to take the appropriate action against detected users. Whilst at Santander, I have helped assisting teams automate their repetitive tasks using Power Automate as well as implement it within the new Insider Threat team.

Jun 2024 – Jul 2025

Security Analyst

ReliaQuest, Dublin, Ireland

Whilst working at ReliaQuest as a Security Analyst, Tier 1, I was based out of their Dublin SOC. During my time at ReliaQuest, I worked with various SIEMs and EDRs due to the large number of clients that ReliaQuest work with. On a day-to-day basis, I handled tasks such as responding to security incidents, speaking with clients, tuning detections, and helping new hires complete their tasks.

EDUCATION

Sept 2021 – May 2024

Cyber Security BSc

Staffordshire University, Stoke on Trent, United Kingdom

I graduated from Staffordshire University in July 2024 with a First (1st) in the Cyber Security BSc degree.
